

To: Governor Murkowski
State of Alaska
Juneau, Alaska

November 1, 2004

PETITION TO OPPOSE INCREASED POLLUTION IN ALASKA SALMON STREAMS

WHEREAS, Alaska wild salmon are known worldwide for being clean, fresh and healthy;

WHEREAS, Alaska salmon require clean water and healthy habitats to thrive and reproduce;

WHEREAS, Alaska salmon support countless families and communities throughout the state, and form part of the cultural fabric that makes Alaska unique;

WHEREAS, the Murkowski Administration has proposed rule changes that will increase pollution in salmon and other fish bearing streams by allowing "mixing zones" in fish streams;

WHEREAS, mixing zones embrace the long-discounted notion that "dilution is the solution to pollution;" and

WHEREAS, salmon health, salmon habitat and salmon marketing will suffer under the Murkowski Administration's proposed rule change.

NOW, THEREFORE, the undersigned do hereby oppose the Murkowski Administration's proposed rule change creating mixing zones in salmon and other fish bearing streams.

Sincerely,

The Undersigned:

1. Patricia Houser Eagle River, Alaska
2. Emily Ward Homer, AK
3. Sally Oberstein Homer, Alaska
4. Arthur Hussey Fairbanks, AK
5. Melanie Duchin Anchorage, AK

105. andie martinez anchorage, ak
106. Jeff Beaudoin Resource developement starts with salmon stream water quality. Other industries, such as mining, are not a renewable resource. Why risk salmon resources? A "watered down" version on water quality (mixing zones) risk economic developement that is already established and ongoing, i.e. regional branding on wild salmon and the message of Alaska's finest seafood in the world will be harmed in the long run. Why proceed further, when scientific evidence is not the primary focus and concern. What a message this sends to every commercial fisherman in the State - your resource does not deserve protection. 198. Carol L. Mani Olson I am a former Alaskan - and proud of it. Please keep Alaskan waters clean.
Seattle, WA
199. Maryellen Oman Anchorage, AK
200. Patricia King "Mixing zone" is just a catch phrase coined to excuse poisonous practices in the name of profit.
Fritz Creek, AK
201. Owen Gourley As an Environmental Science student, I can tell you that regulatory mixing zones are just a trick to allow increased pollution of waterways. Instead of preventing pollution, they allow a region to be polluted as long as overall levels of a pollutant aren't toxic. The problem is that toxics accumulate in living things increasingly up the food chain, so dilution doesn't work. pollution has to be regulated.
Anchorage, Alaska
202. Deborah Smith Homer, AK
203. Omar John Gucer I am a commercial salmon fisherman.
Homer, AK
204. Christine Fontaine Homer, AK
205. Lynn Kenney No sewage in our salmon streams, please.

Salem or/soldotna ak
548. James Howard Sometimes people in power get so far removed from what is truly important &
valued by their constituency that they tend to make decisions based on only what is important to them or if it
will benefit them or others that support them. Why does it take a popular uprising to get their attention? Why
can't they look past their own interests & see what would be best for everyone, even if they don't agree or like
each other. Some politicians need to get a clue, or if they don't, then send them packing for good. Alaskans
need to get this guys attention before he destroys the only salmon habitat in the US that is virtually untouched.

1010. JAMES R STUBBS ANCHORAGE ,AK.
1011. mike schwaller Not voting for you if you go through with this!
anchorage ak
1012. Bridget Hitchcock Sitka, AK
1013. Chris Hoffman Protecting adults returning to spawn is only part of the reason to ban mixing
zones. What about protecting eggs, fry, juveniles and out-migrating smolts? What about salmon prey abundance
and diversity that are harmed by pollution? All of these life stages have a longer residence time and are more
susceptible to various pollutants than returning adults. What about anadromous fish such as Dolly Varden (non-
resident) that can spawn several times during their life? The entire life cycle and ecological demands of the fish
(and waterfowl that prey on the juveniles) must be considered here. If you could care less about this, at least
consider the public perception (to Alaskans and potential tourists) and the lost revenue. I believe it will far
outweigh the limited economic benefits of your typical pro-industry policy. Make the right choice. You simply
cannot dump in pollutants, clear cut watersheds and still have abundant fisheries for subsistence, sport, and
commercial fishermen and expect increased tourism. Wasilla, AK
1014. rob bottner driggs,id
1015. Jim Slater I'm a fisherman and I vote
Pelican, AK

1019. daniel m wolf anchorage alaska
1020. Lee E. Faber Toledo, Ohio
1021. Stephen A. Price As an annual guest of your great state, I plan on continuing my visits, spending
my tourist dollars, and fishing the beautiful, PRISTINE, CLEAN rivers and streams for many years to come
and to bring my kids here, too. And if I can convince my wife and family, we'll move up here to stay. Let's keep
Alaska's treasures unspoiled. Remember, pollution, even a "little bit" can be compared to a disease. Do you
want just a little bit or a diluted bit of HIV/AIDS? Or a little bit or diluted form of cancer? Or to a young teen
girl...a little bit of pregnancy? Or a little bit or diluted form of death? Taxes?...Ok, taxes we can deal with but
polluting Alaska's watersystems is a choice we don't have to make nor accept.
Wake Forest, North Carolina
1022. Jason Freeman Mixing zones only lead to looser environmental controls and opens the door for
excessive pollution.

1144. Pat Rivenbark Soldotna, Ak, 99669
1145. Louise Dodier Please, for our health and the fish. No pollution
Magog, Québec
1146. Scott Quale Eagle River, AK
1147. Pamela Brodie Homer AK
1148. Eve Fieldhouse Juneau, Alaska

1149. Carl Shook This is absurd. There is no way "mixing zones" are a legitimate, longterm solution. Bellingham, WA
1150. Jodi Estalilla Montesano, WA 98563
1151. Frank Chiariello Eagle River, Ak
1152. John R Keddie Apollo, Pa.
1153. Linda Whitman Juneau, AK
1154. Jason Clayton Lawton, OK
1155. Osvaldo Hernandez East Lansing, MI
1156. Tory Phare Your philosophy is flawed. All the protection measures in the world don't keep spills and contamination from happening; as an Alaskan, you should know this better than anyone!
Bellingham, Wa.
1157. Eric C. Scurlock Anchorage, AK
1158. Gary Gusinsky Marysville, Wa
1159. Michael L Weber Palmer, AK
1160. Richard M. Schroeder Salmon stream cleanliness/conservation is critical to strengthen Alaska's economy. Anchorage, Alaska
1161. Dawn Osmonson Osceola, IA
1162. Ed Bailey Eagam, MN
1163. Janene Driscoll Where water is concerned, clean is better than dirty!
1164. William Alec Louis Tobey-Tuovinen
Anchorage, Alaska
1165. Brett Weitekamp Urbana, IL
1166. Dwight Gurley Eagle River, Alaska
1167. Nathan E. Morton III It is important to take care of Alaska, any pollution to our waters is the wrong decision, we all know the decision to put toxins into our streams and riverways is wrong.
Palmer, Alaska
1168. Rick Outzen Snohomish, Wa
1169. John Stauffacher Sterling, AK
1170. Richard Tweet Anchorage, AK
1171. Chad Theismann Port Angeles
1172. Robert F. Aaron, Jr. As a pilot, I bring thousands of money wielding tourists to AK each year. I would have to let them know exactly where not to go due to the potential contamination issues!
Golden, CO
1173. Wiliam Tyler Zollinger Girdwood, Alaska
1174. Thomas Hadley Why would I travel all the way to Alaska to fish in polluted waters ?
Madbury, NH
1175. Larry O. Peimann Lake St. Louis, MO
1176. James Glasgow 25 years experience in environmental protection has convinced me that zero pollutant discharge into pristine streams is the only practical way to prevent otherwise compelling development and incremental degradation. Standish, Maine
1177. Noel Nieves Stop polluting our streams!
Colorado Springs CO
1178. F. Zipple People are Raping the Earth!
Key West, Florida
1179. Andy Cheadle Anything that has the potential to be bad for salmon spawning is bad for Alaska!
1180. Jim Ray Is this dumb or what?? duh????? We need less pollution not more.
Anchorage, Alaska
1181. Ben Cuaresma aNCHORAGE, ak
1182. Ricky Pangulayan Anchorage, Ak
1183. matt henderson fairbanks, alaska
1184. Dave Demeter Goleta, Ca.
1185. Dan Winter Anchorage, AK
1186. Denton Hamby Copper Center , Alaska
1187. Daryl P. Kuemerle Anchorage, Alaska
1188. julie kellogg how could you? because they can. they know not what they do.
1189. Allen Blanchard Bothell, Wa.

1190. Joseph Bettis Friday Harbor, WA
 1191. Carolyn Pas Girdwood, AK
 1192. John C. Hess Gov. Please think long term for Alaska.
 Anchorage, AK
 1193. Carole Pratt Scottsdale, Arizona
 1194. andrew byrd anchorage,ak
 1195. claude brouillette anchorage, alaska
 1196. Sandra O'Brien It appears that since you have proposed this, you already have an attitude about
 not caring about the future of Alaska and the resources that make our State so rich. You have a chance to turn
 that around by choosing a wiser option to keep our streams as pris tine as possible - allowing for NO pollution.
 It is the ONLY way to approach long-term goals. Anchorage, AK
 1197. leola adams anchorage, alaska
 1198. Mark Connorwe need oxygen to survive
 Bend, OR
 1199. Danny Hollon Prior Resident of AK Trafford, Alabama
 1200. Sondra Stanway Juneau, Alaska
 1201. Russell W Burlingame Palmer, AK
 1202. William Blake anchorage, ak
 1203. Lawrence Lewis Please do not destroy the long-term wonders of Alaska for a very transient
 potential benefit. St. Louis, MO
 1204. patrick speranza anchorage, ak
 1205. Nancy Hillstrand I buy and sell Alaska salmon
 Homer, AK
 1206. Clarice Johnson It is incredibly foolish to allow pollutants near salmon streams when
 the dwindling market for Alaska wild salmon is dependent on the public perception that Alaska waters are pure.
 As an Alaskan who has fished commercially for over 25 years I am very disappointed in your stance on this
 issue. Sitka, Alaska
